- TypeScript
- React.js
- Express.js
- Node.js
- Asp.Net Core
- My SQL
- MongoDB
- GitHub
- PostMan

LANGUAGE

- English
- Urdu
- Punjabi

PROFILE

A passionate Full Stack Developer with hands-on experience gained through an intensive internship at NexSkills, where I built a solid foundation in modern web development. Currently applying my skills at Synctecho, where I actively contribute to real-world projects and enterprise-level solutions. I am proficient in both the MERN Stack and ASP.NET Core with SQL, enabling me to build scalable, secure, and responsive web applications.

WORK EXPERIENCE

Synctecho

April 2025 - Aug-2025

Full Stack Developer

- Developed web applications utilizing technologies, including ASP.NET with MySQL and React, gaining practical skills in modern front-end and back-end development.
- Developed a full-featured website on fish care. The site includes dedicated sections on fish diseases, breeding, and keeping, showcasing skills in front-end development, responsive design, and information architecture.
- Projects : **User Rights Dashboard, Aquarium Hub**

NexSkill (Intern)

Aug 2024 - Jan 2025

MERN Stack Developer

- Gained practical experience developing web applications using the MERN stack (MongoDB, Express.js, React, Node.js), contributing to both front-end and back-end development.
- Developed a full-stack e-commerce website using the MERN stack, contributing to both front-end and back-end development. Gained experience in creating key features such as user authentication, a dynamic product catalog, and a functional shopping cart.
- Project: **E-Commerce Website**
